PROJECTS

- **College Management System (Live Web Application)** [Live Demo](#) | [GitHub](#)
Tech Stack: [C#, ASP.NET MVC, ADO .Net, SQL Server, HTML, CSS, Bootstrap, Ajax, jQuery] Feb. 2026
 - Developed and deployed a fully functional College Management System on live hosting platform.
 - Implemented secure Admin and Student authentication with session-based access control.
 - Designed role-based admin dashboard for centralized academic and institutional data management.
 - Built complete CRUD modules for Colleges, Courses, Branches, Academic Years, and Students.
 - Created dynamic dependent dropdowns using Ajax and jQuery to improve user interaction.
 - Integrated ASP.NET MVC with SQL Server using ADO .Net for efficient relational data handling.
- **Secure CRUD Web API** [GitHub](#)
Tech Stack: [C#, ASP.NET Core Web API, Entity Framework / ADO .Net, SQL Server] Jan. 2026
 - Designed and developed a secure RESTful Web API for performing CRUD operations.
 - Implemented authentication and authorization mechanisms for protected endpoints.
 - Integrated SQL Server for persistent data storage with proper validation and error handling.
 - Followed layered architecture principles to ensure scalability and maintainability.
 - Tested API endpoints using Postman to verify request-response lifecycle.
